

## Next Generation Vending

Faster payment solutions

## The essential payment solution for vending

Systopia bring the next generation payment solution to quality coffee and vending provisions.

Choose cashless or contactless payments for your self-service vending solution and enjoy hassle-free fast payment.

Enable instant payment to ease queue times, reduce resource requirements and increase revenue out of hours while delivering a fast and effective customer experience.

Remove associated costs and inefficiencies of coin acceptors and cash handling.

*Slimline counter top unit*

In partnership with all major card schemes

**For more information contact:  
info@systopia.co.uk or call 0800 0852056**

### Highlights

- Retro-fit to current machines
- Compatible with all major card schemes including:
  - ApplePay
  - Google wallet
  - AndroidPay
- Increase revenue out of hours
- Reduces resource requirements
- Eases queue times
- No more coin jams

*"We have over 100 vending machines in our estate and Systopia's "tap & go" solution has taken away the cost of maintaining the coin acceptors and removal of cash."*

## Tap & Go Payments

Both new and existing vending machines have the option of a built-in payment unit or a slimline, aesthetically pleasing satellite device to enable that fast 'tap and go' experience.

Using our innovative solution, customers can simply present their payment card or cashless ID card/wristband to make fast and convenient instant payment.

**POS - ORDERING - SELF SERVICE - PAYMENT - LOYALTY - REPORTING - MANAGED SERVICES**
